

2024年国際学会発表

1. Multicenter Study of Circulating tumor DNA in Patients with Pancreatic Cancer using Personalized Panel: ARTEMIS-PC study
Shibuki T, Bando H, Ueno M, Okusaka T, Kamei K, Ikezawa K, Komatsu Y, Unno M, Sugiura T, Furukawa M, Esplin ED, Swan K, Westheimer E, Volacase K, Graybill C, Daber R, Korn WM, Yoshino T, Ikeda M
ASCO GI 2024/1/18-20 San Francisco, US

2. Neoadjuvant therapy versus upfront surgery in patients with left-sided primary resectable pancreatic adenocarcinoma: an international observational multicenter study
Rangelova E, Stoop TF, van Ramshorst TME, Matsumoto I, Kamei K, et al.
43rd Congress of the European Society of Surgical Oncology (ESSO)
2024/10/2-4 Belgium

3. Poster Session: Clinical significance of rapid tumor marker response to systemic chemotherapy in conversion surgery for unresectable locally advanced pancreatic cancer
Matsumoto I, Yoshida Y, Nakano M, Ami K, Nobori C, Lee D, Murase T, Kamei K, Takebe A, Nakai T, Takeyama Y
APA-JPS-IAP-CAP 2024 Meeting -East Meets West- 2024/12/10-13

4. Poster Session: Validation of efficacy of neoadjuvant therapy for R-PDAC: A single-center retrospective study
Kamei K, Nakano M, Ami K, Nobori C, Yoshida Y, Lee D, Murase T, Takebe A, Nakai T, Matsumoto I
APA-JPS-IAP-CAP 2024 Meeting -East Meets West- 2024/12/10-13
